EDUCATION

Bloc - Web Development Program

October 2019 - September 2020

Concentration on full stack development, production, and deployment of mobile applications, websites, and programs, focusing on HTML5, CSS3, Javascript, React, Node.js, and data structures and algorithms

Tufts University - B.A. International Relations and Environmental Studies (Dual Major)

September 2015 - May 2019

EXPERIENCE

MyoPain Seminars - Web Development Contractor

November 2019 - February 2020

Worked directly with administrative and medical teams to launch a new company website with remote learning capabilities. Served as the liaison between leadership team and the developer team

Resonant Energy - Outreach Fellow

June 2019 - September 2019

Consulted on solar panel policy, financing, and engineering for perspective and current clients. Conducted research on renewable energy policy and economics. Managed all social media accounts and marketing.

WMFO 91.5, Medford - Assistant Station Manager, Executive Board Member Vice President

January 2016 - June 2019

Hosted live radio programs in English and Spanish; ran day-to-day station operations and finances, designed station merchandise. Coordinated volunteers and community outreach. Maintained and organized digital and physical music library.

The Amir Project - Outdoor Educator

May 2017 - August 2017

Taught environmental science, social justice, nutrition, and agriculture classes to students ages 5 - 18. Built and ran a community garden and raised animals and livestock for educational programs.
